

# CONDUCTOR

conductor-project.eu

Fleet and traffic management system  
for conducting future cooperative mobility.

Traffic management

Fleet management

Load balancing

Multimodality

## MAIN GOAL

To design, integrate and demonstrate advanced, high-level traffic and fleet management that will allow efficient and globally optimal transport of passengers and goods, while ensuring seamless multi-modality and interoperability, through dynamic balancing and priority-based management of vehicles (automated and conventional).

CONDUCTOR project has received funding from the European Union's Horizon Europe research and innovation programme under Grant Agreement No 101077049.
